

A-1 & Elite Limousine are 'Green'

A-1 & Elite Limousine have an "on-growing" green initiative program.

Currently we support green initiatives in many ways including recycling of consumable products, utilization of efficient fuels and synthetic oils, energy efficient lighting and electrical products, share rides for customers, and larger vehicles that accommodate 4 to 56 people to reduce fuel, improve carbon use offsets, reduce use of paper and resources and an industry leading 'Ride Silver™ Program'.

Carbon Use / Offset / Ride Silver™ Program / Your Participation

A-1 & Elite Limousine have partnered with CarbonFund.org to create and establish an industry leading carbon use / offset program for our entire fleet to attain a true carbon neutral position. Your trip will be assessed a nominal fee to be included in our company wide contribution to help insure a carbon free world for future generations.

Recycling

- A-1 & Elite Limousine recycled 11 tons of cardboard and 7 tons of newspaper
- A-1 & Elite Limousine recycles all glass and aluminum products
- A-1 & Elite Limousine recycles all print and toner cartridges
- A-1 & Elite Limousine recycles all tires used for all fleet vehicles
- A-1 & Elite Limousine recycles and utilizes used motor oil for heat with over 2,500 gallons utilized in this manner last winter
- A-1 & Elite Limousine recycles all car batteries
- A-1 & Elite Limousine utilizes high efficiency low water volume car and bus wash machines to clean our vehicles

Utilization of Efficient Fuels and Synthetic Oils

- A-1 & Elite have modified our oil usage and now uses synthetic oils for lubrication in our fleet
- A-1 & Elite Limousine use environmentally friendly antifreeze, oil and air filters
- A-1 & Elite Limousine utilize a mid-grade gasoline to increase fuel efficiency and burn rate
- A-1 & Elite Limousine utilize ultra low sulfur diesel fuel for all diesel engines
- A-1 & Elite Limousine use carbon friendly catalyst and exhaust systems on all medium and heavy duty diesel engines to reduce our carbon output
- All A-1 & Elite Limousine vehicles under go regular inspections and maintenance program by our in-house, factory trained and ASE certified mechanics to insure optimal performance / efficiency

Energy Efficient Lighting and Electrical Products

- A-1 & Elite Limousine utilizes energy efficient florescent lighting in all of our offices and work spaces

Share Rides

- A-1 & Elite Limousine offer share rides for corporate entities to reduce vehicular traffic and carbon use / offsets from our vehicles
- A-1 & Elite Limousine provide shuttle service to corporations to transport in excess of 1.5 million people annually to reduce their carbon use

Paperless Products

- A-1 & Elite Limousine offer all billing and reporting services electronically to reduce the use of paper products in our and your offices

The Future

- A-1 & Elite Limousine are continuously looking at new and improved products and services to increase our green initiatives and carbon use / offset programs
